ix1300

Small scanner, big impact

Small scanner, big impact

Fits into your life, on any desk

The modern way of working can be full of surprises, and we can all find ourselves working in tight spaces and new places. The smart and ultra-compact ScanSnap iX1300 is designed to fit on any office desk or into any home office setup, helping you stay productive wherever life takes you.

Simple, Practical and Efficient

The iX1300's innovative dual-feed design creates a tiny operational footprint that makes it our smallest desktop scanner yet. Instant Wi-Fi connectivity and PC-free scanning to cloud services using ScanSnap Cloud are all part of a smarter way to work.

The iX1300 is packed with time-saving features to boost efficiency and with no wait time to warm up, you are ready to go in seconds. Plus, the return path capability means you can quickly scan individual sheets without even opening the cover. Use the 20-sheet feeder featuring an impressive 30 double-sided pages per minute speed and you'll finish scanning batches of documents in no time at all.

The intuitive ScanSnap Home software (included) helps you easily convert the papers you have, into the digital files you need, along with the ability to find them quickly, wherever and whenever you need them. There's plenty of personal productivity packed into our most practical scanner yet, ensuring the iX1300 makes paper work for you and your business.

Practical productivity

Automatic Document Feeder

The iX1300 is our most compact desktop scanner. The innovative U-turn feed path creates an extremely small operational footprint and there's no rush to move things out of the way to extend a paper tray when you need to scan multiple sheets – saving you time, and space.

Manual Feeder

With ScanSnap you don't need to know IT – just how to press a button. And, with the iX1300, you don't even need to open the cover.

The return path scanning mechanism means you can instantly scan both sides of individual sheets or booklets up to 2mm thick simply by feeding them in and pressing the Scan button.

Wi-Fi connectivity

Instant Wi-Fi connectivity and PC-free scanning let you quickly set the iX1300 up, and scan directly to your preferred cloud services or our mobile app.

Standard, editable output files

Boost productivity with the iX1300's ability to save your documents in a range of formats including PDF, Searchable PDF, or JPEG. You can also convert them to editable Word, Excel, or PowerPoint files which is a great benefit when you need to make changes to documents that you only have on paper.

Boost Efficiency

Quickly scan multiple sheets

Being efficient is a top priority in the modern world and the iX1300 delivers.

An impressive scanning speed of 30 double-sided pages per minute and an Automatic Document Feeder that holds up to 20 sheets means you can reliably scan whatever you like in no time at all - quickly getting you back to the more important things in your life.

Custom file tagging

With custom file tagging you can add your own tags to scanned document files with minimal fuss - making it easier and faster for you to search for, find and retrieve them at a later date.

Intuitive ScanSnap Home software

The intuitive ScanSnap Home software (included) helps quickly and easily convert the papers you have into the digital files you need, giving you greater control, and helping you focus on what matters most.

From automatic classification according to document type, image optimization and final file distribution, to assisting you to manage and edit scanned data from documents, receipts, business cards, photos, and more, ScanSnap Home takes the stress out of organizing and finding what you need.

User Experience

Simple setup

With the iX1300, there are no complex settings to deal with. Easy setup via Wi-Fi or from a mobile device creates a simple, user-friendly setup experience.

Fast start-up time

When you have something to scan you don't want to be left waiting around wasting time.

In addition to the one-touch scanning experience ScanSnap users count on, the iX1300 doesn't need any time to warm up and has a streamlined scanning process that allows you to go from start to scan in just two or three steps.
